A WORD FROM THE EDITOR

UNIONISM, as applied to labor organizations, has from its inception been instilled with the idea that its entire efforts must be concentrated upon the boycotting of its enemies. During the course of growth and progression of the labor movement the true and tried have been brought to a realizing sense of the duty they owe to the employers who have defended their cause by giving them employment at the hours and wages exacted.

The path of the employer of union men has not been strewn with roses, as is the common belief of most of us. It is, and has been, a nip-and-tuck encounter with a more subtly organized combine than we have been able to realize. An explanation of this situation will be given in subsequent issues.

The production of a union goods directory has been a crying need for some time past. We have been regaled with all sorts of literature in the nature of a boycott. In our opinion, to most effectually boycott an unfair product is to patronize the producer of fair-made goods. It is in accordance with this line of thought that we have produced a list of retail dealers from whom may be had goods made or manufactured under fair, sanitary and auspicious conditions. We do not cater to any particular union, but include all unions within the jurisdiction of the American Federation of Labor.

This directory has been compiled through trials and tribulations, as all those who have been engaged in similar undertakings well know. We therefore ask those who may be prone to adverse criticism to consider the gigantic proposition which we have undertaken. We would greatly appreciate the announcement of any inefficiency in the compilation or the omission of information which would make it more complete and worthy of the cause it advocates if forwarded in time for the next issue.

BAKERIES.

Insist on getting the label. If your dealer does not handle it, patronize one who does. Do not patronize restaurants or boarding-houses unless they handle Union-label bread and crackers.

The small design is found on all union-made bread, cakes and small packages of crackers and candies. The large design is found on all large packages or barrels containing union-made candy, cakes and crackers.

If you love your family, join the union of your craft.

If you love your home, buy union-made goods.

If you love humanity, work for the labor cause.

Every time you purchase an article without the union label you injure a trade unionist.

Spread the gospel of unionism among the unorganized. In the same measure that it takes root, it will benefit you.

A good union man and a violin have much in common. They keep on improving with age, until they become almost priceless.

The union label is organized labor's long-range, quick-firing gun. With it we can reach the most distant non-union factory.

One good thing is noticed in the trade-union movement, and that is the rapid organization of label leagues all over the country. It cannot be too often stated that the label is organized labor's strongest weapon and greatest organizer. Demand the label at all times.

The women do two-thirds of the shopping, and the merchants know it. One woman can do more propaganda work by asking for the union label than ten men. They have a way of asking for an article that carries conviction. Make it a fad with the women to insist on union label goods, and union clerks and organized labor will receive the biggest boom ever known.

Peck & Co., 822 Broadway, New York, manufacture men's union-label clothing.

BILL POSTERS.

To committees in charge of entertainments, balls, picnics, etc., and to labor unions: When having your bills and other printed matter put up, see that this label is attached to the poster. It is a guarantee that the work was done by union billposters.

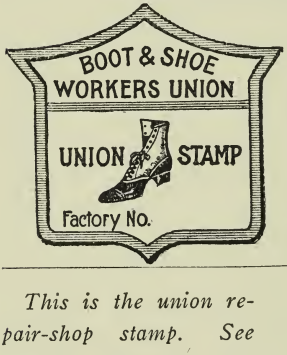
BOOTS AND SHOES.

This stamp is found in the sole or lining of every shoe made by union men. It guarantees that the shoe is not convict or scab made.

BOOT AND SHOE WORKERS' UNION



OFFICERS:

JOHN F. TOBIN, President.
CHAS. L. BAINE, Sec.-Treas.,
246 Summer Street, Boston, Mass.

LOCAL OFFICERS:

Brooklyn—John B. Geary, 1153 Myrtle av.
New York—J. Wehneke, 323 E. 68th.

CIGARS.

This label is an emblem of cleanliness, honest labor and fair wages. When you take a cigar from a box bearing the blue label you know that it was made by union men in clean factories. The label does not appear on cigars made in tenement houses. Look for the blue union label. Ask for union-made cigars.

A GOOD many people do not know that the Egg-O-See Cereal Company is the only cereal food concern that has the official label of the Cereal Workers' Union of America upon the boxes containing its products. The factories of this company, at Quincy, Ill., and Buffalo, N. Y., are models of cleanliness. Their employees are healthy, happy and well-paid, and are enthusiastic in their praise of the fair conditions under which they work. Not only does this firm place the union label on its cereal products, but it ALSO uses the printers' union label on its printing, and the lithographers' union label on its lithographic work. The success of the Egg-O-See Company has been phenomenal, due to their fair treatment, both of employees and the buying public. More Egg-O-See is sold to-day than any other cereal food in America. Every time you purchase a package of Egg-O-See, you do three things: First, you boost unionism; second, you knock Post, the union hater; third, you get the best cereal food on the market. See their advertisement on the second page of cover.

Let us practise what we preach, and thus help those who help us.

"FIGGERS" That Don't Lie

Population Battle Creek, Mich..... 22,213

Population Girard, Kansas 2,473

Battle Creek Printers' dues and assessments for months of February, March, April and May, $117.75 or $5.35 per 1,000 population.

From Girard, dues and assessments for same period were ..... 92.15 or $38.40 per 1,000 population.

Consider in addition to this the millions spent by Post which goes unstintingly to publishers who are striving to maintain an open shop, and every package of Postum you buy is, in fact, a direct contribution to the fund which is being used to crush out unionism.

Can you help your brothers in Battle Creek to gain the union label on all of Post's printing better than by personally buying Nutreto and distributing it free, if need be, among your friends, thus hastening its introduction and creating a permanent demand to the exclusion of Postum?

It's a plain business proposition, boys, up to you for action.

Nutreto is the only rival of Postum that meets him everywhere.

The advertising appropriation of Nutreto is expended in a way to forward unionism at every turn in the road. Where is your money spent, Mr. Printer, and are you pushing along the demand for union label goods? If not, what sort of a union man are you?

The Typographical Union has scored a clean victory in its fight for the eight-hour day, although opposed by a vast combination of capitalists. To win that fight cost the union $3,000,000, the money being raised by assessment among its members. The struggle lasted eighteen months. Many would probably suppose that it left the union exhausted, at the end of its resources. Instead it left it more powerful financially and numerically than ever before, and the members were prepared to continue the struggle indefinitely. The capitalists who fought the printers were the only real sufferers.—*Schenectady Leader.*

A well-established union label—the flag of the American union.

PORT HURON, MICH., August 10, 1907.

MR. H. GEACH, New York, N. Y.

Dear Sir:—Reply to your letter of July 29 has been delayed on account of the writer's absence from the city. * * *

The writer wishes to state that your scheme appeals to him. In visiting the secretaries of carpenters' unions we find numerous notices of goods that are on the unfair list, but nothing is said about the goods that are fair, and it seems to me that if anyone who buys fair goods should be interested in knowing what they are, and where they can be bought it is the union man, for if he don't insist on having these goods, who will?

The writer will take personal charge of our campaign in New York, when started, and will take pleasure in calling on you at that time * * *

Very truly yours, _____ _____

THE SILENT STRIKE

Look at the clothes you are about to buy. If they have the union label, complete your purchase. If not, let them lie on the counter unbought. Letting them alone is your silent strike. You can exert it against scores of articles of wear and of household utility. Millions of working people—the trades-unionists and their families—can do the same. This silent strike they can carry on all the year around. The beauty of the silent strike is that you lose no time, no money, no sleep. You are getting full pay while you are striking, and doing effective work. Your family, instead of being a drawback to the success of this strike, is a benefit. They can help you in it by always asking for "label goods" and in urging their friends to do the same.

NEW YORK JOURNAL

20 Pages W. R. HEARST 20 Pages

Fortunately the Printers Are Fighters—and HAVE MONEY

They Wont Be Starved Out by Pinch-Penny Employers.

The printers' strike begins to-day.

A year and a half ago the workers notified the employers that after January 1, 1906, they would insist upon the eight-hour day in all job and book concerns.

The employers have chosen to fight. They think they want the "open shop," which means the right to hire scabs and put the men to fighting each other, cutting wages, stealing each others' jobs, etc.

The men don't propose to fight *each other*. They mean to fight *together*.

They have begun the fight, and they are going to *win, because they are in the right.*

Eight hours of *concentrated work is enough.*

Eight hours working at a typesetting machine, with a pot of molten metal sending fumes into the lungs, *is enough.* Eight hours of work will give all the product that the employer should get, and all that the man should do.

At the end of a working life, the man who works eight hours per day will have set actually more ems of type than the man working nine hours. For the extra hour tires the man, lowers his vitality and shortens life.

The employer may say: "I would rather work them out quickly and get new ones," but the workman, strange to say, has different views. In the Argentine, where horses were so cheap, it was the fashion to buy them for the street car lines and literally work them to death—it hardly paid to feed them. It did not pay at all to take care of them.

The horses had to stand it. They had no union, no intelligence, no funds.

The printers have all three.

Already Big Six alone has contributed over one hundred thousand dollars to the fight of the men for eight hours. That has a refreshing sound, hasn't it? It is pleasant for a change to hear of men that *work* having a little ready cash to put their hands on. It gets rather tiresome to hear always of the Wall Street gamblers that *don't* work having all the money in sight.

The printers are also raising a nice little fu of fourteen thousand dollars a week just now carry on the strike, and they can double that, if th have to—and then *treble* it.

They wont be starved to death.

And they wont be *scared* to death by the e ployers' threat "to put girls in their places."

In the first place, the girls cannot do the wo In the second place, the girls will prove mighty reliable "scabs," as the employers will find out. T average girl puts decency above money.

In the third place, *right wins in this world*, a men so mean and heartless as to brag of putting we women and girls at a task fit only for strong m *are bound to lose a fight.* Cowardice always los We shall keep track of this strike carefully. A we shall take pleasure in observing *and telling* wh ones among the publishers that talk so finely of m ality and good citizenship help out honest worke and which ones go into the scab business, and working of girls in place of men.

All over the country we shall soon be deali with "the open shop" idea, that dearest heart's w of the treacherous, labor-hating Civic Federation.

A few big men, having wheedled a few lal leaders, none too strong-minded, into joining the are now talking of the open shop, of importing C nese coolies, quite calmly, as though these were open questions.

They are *not* open questions. They have b settled in this country once and for all. And labor leaders who discuss them, and who treat th as *open* questions, in their frantic desire to hobn with such fine "union" men as August Belmont, find themselves out of their leadership, unless a li shall dawn upon them.

The workers are tired of seeing their lead sitting in council with managers of scab enterpris They know that the leader who would not meet a treat with the owner of a small East Side scab ta shop has no business hobnobbing with the owner a scab railway system.

The workers are fortunate in having such n as the printers to lead off in this big fight for preservation of the labor union idea, good wages a reasonable hours.

The printers will win.

When the fight is over, we advise them to scr nize closely the leaders who have made it a busin of late to deal on friendly, "society" terms with th enemies, thus getting the "open shop," scab lab Chinese coolie idea spread broadcast.

THE UNION LABEL.

The Union Label is the guide-post of union labor. It points the safe way in buying. It shows the wage-worker where to find friends among employers. The Union Label means solidarity and fraternity. The Union Label means the best wages, the shortest hours. It means that labor is done under the best conditions. When you buy goods with the Union Label you will know these goods are not made in a tenement sweat-shop. The Union Label represents a union effort to abolish child labor, it means a shorter workday, it means better wages, it means more humanity in the factory, it means a living wage, and if a united effort was made and the workers as a class insisted on Union Label goods, strikes, reduction of wages, industrial warfare would soon be at an end. The general demand for the Union Label means a general improvement.

One of the first union labels—Old Glory.

The trades-unionist who pays 25 cents in dues and then goes out and spends $2.50 for some article made in a sweat-shop, or by non-union labor, resembles a man trying to fill a barrel by pouring in water from a pint measure in one hand, while he dips it out with a gallon pail in the other.

Reason is the weapon of organized labor, and Justice is its goal. But the weapon can be made sharper and the distance to the goal shorter by the earnestness, activity and loyalty of its members.

LABOR'S BATTLE ROYAL

Nature starts all her children, rich and poor, physically equal. This, broadly speaking, is the opinion of many leading physicians. If the number of children born healthy and strong is not greater among the well-to-do classes than among the poorest, then it presents to us a very significant fact which completely revolutionizes many notions as to the great disadvantages of being born in the tenement.

What happens to the tenement child after its birth is quite another story. Nature is not responsible for that. She has done her best. If poverty or indifference or ignorance or sin blight her fair work, she stands uncondemned. But nature is not content in accepting a position in which she is simply exonerated. The violation of her law is followed by an unforgiving pursuit, until the full penalty has been inflicted, for with nature there is no forgiveness of sin. And nature makes no class distinctions.

This equality at birth does not long favor the child of the slum and the tenement. Vital statistics quickly prove this statement, for the burden and the penalty of poverty and its accompanying evils fall most heavily upon the child. The lack of proper nourishment, of suitable clothing, of healthy sanitary conditions, make life precarious for the babe who must suffer on account of their absence.

When such a state becomes chronic, the chances for life are exceedingly small. Death's scythe sweeps relentlessly through the ranks of little children, whose cry for food has chilled a thousand mothers' hearts. Then are hushed a thousand babies' voices, who suffered long because there was no skilful hand to nurse, and no healing draft to cure.

There is no battle more royal than the saving of the child. To bring color to the wan cheek, to bring brightness to the dulled eye, to so much as bring a smile to the face that already bears the mark of pain and suffering—this is a task worthy of the best that is in any man.

To organized labor has this work been given. No other mission can ever mean more than this. Strong should be the support given the trade unions in their endeavor to blot out the curse of child labor. And blighted should be every arm that is raised in protest against the warfare which means the salvation of little children from a bondage that is crushing out life and hope.—Rev. Charles Stelzle.

Trades unions have always stood for the highest grade of workmanship. The most skilled, efficient and best workmen are members of the unions of their respective trades. They are more intelligent along higher, broader and more progressive lines than the professional non-unionists. This class of non-unionists is not on an average lacking in intelligence or an average degree of skilled workmanship, but their line of reasoning is so narrow and so selfish that they overlook their greater interests in chasing their smaller interests.

Trades unions are the guiding star in which the ambition, aspiration and hopes of labor are all centered; they will not fail us.

A FEW OF THE

"COSMOPOLITAN'S"

Big Features for 1908

2 DUANE STREET 10c. MONTHLY

A Great Oppenheim Series

"The Long Arm of Mannister" is undoubtedly the most interesting and original series of stories that has appeared since "The Adventures of Sherlock Holmes." Mr. Oppenheim by his ingenious and thrilling plots has won the position in the affections of the reading public once held by Conan Doyle. The first story appears in this issue; the second, "Traske and the Bracelet," will be published in November. Illustrations by noted artists. The ten separate stories comprising "The Long Arm of Mannister" will be the most unique magazine fiction feature of the year.

A NEW SERIAL BY A NEW AUTHOR

The Kingdom of Earth

By ANTHONY PARTRIDGE

This author's name is still unknown to the American reading public. But the first instalment of his brilliant novel, "The Kingdom of Earth," which appears in the November COSMOPOLITAN, will show that he is indeed a "comer." "The Kingdom of Earth" is the remarkable love romance of a European prince and a beautiful and talented American girl. This story is full of exciting adventure and unusual complications brought about by the high station of the hero, and moves to its climax in baffling mysteries that are not fully solved until the very end. Altogether "The Kingdom of Earth" is an ideal serial story. The illustrations will be by that most charming of American illustrators, A. B. Wenzell.

The New "Wolfville" Stories

The lovers of "Wolfville" are legion, and their numbers have been materially increased since the COSMOPOLITAN has been running this new series of Mr. Lewis's stories. They need no advertisement. When one has been read, eagerness for the others follows as a natural result. The new "Wolfville" stories will be continued during a large part of the year 1908, with illustrations by the most successful of the new portrayers of Western life, W. Herbert Dunton.

The Latest News from Mars

Prof. David Todd is returning from South America, where he has been most successful in his observations of our next-door neighbor in the heavens. It is expected that he will be able to throw new light on many of the mooted points in regard to the physical features of Mars and the question of existence of life upon its surface. The results of these wonderful observations will be written by Professor Todd for the COSMOPOLITAN, with photographs taken under the most favorable conditions of proximity.

BUY FROM THE UNION EMPLOYER, OR—

WEST BOYLSTON, MASS., July 11, 1907.

MR. H. GEACH, New York.

Dear Sir:—Your letter of 8th received; in reply would say I gave notice to the machinist union a few days ago to terminate my label agreement at the end of 30 days, as I have not built any union machinery in the last 18 months, as I have not found anyone that used union-made machinery, so I expect to go back to running a non-union shop.

Yours truly,

P. S.—I enclose stamp; would like a copy of the Directory.

SUSPENDERS.

This label of the American Federation of Labor is attached to all union-made suspenders. The label is your only guarantee in buying suspenders.

DEMAND THE LABEL.

TEXTILE WORKERS! ATTENTION!

ROCHESTER, N. Y., July 20, 1907.

H. GEACH,

Dear Sir and Bro.:—I am very much pleased with your sentiments in present issue of "Journal"—hence this short note.

Perhaps you will remember the press accounts of our Secretary of State Johnny Whalen wearing *all* label goods when he took the oath of office.

In view of this fact I have written at least 20 letters to different parts of the country in an endeavor to get Gents' Hosiery and Underwear with the *label* on; and now I want to sound you on the subject.

Do you know where I can get them?

Thanking you in advance for the anticipated courtesy, I am, sir,

Fraternally yours,

—— ——

Your conscience will never bother you if you call for the union label.

The union label supersedes the boycott by concentrating the "purchasing power" upon union products.

A trade-union without financial sources is like an engine without steam, the machinery is there, but the power to put it in motion is lacking.

Sense and cents are as necessary for the successful running of a trades-union as they are for the successful running of any other institution.

Child labor is a disgrace. Help to crush it by shunning non-union products and by demanding the union label. Don't save a few cents on scab goods which represent the life blood wrung from little children.

In most cases the union label is a small affair, but when you consider what it stands for, what condition it represents, what happiness and comfort it secures, what misery and heart-ache it relieves, what impudence and arrogance it checks, what bright ray of hope it gives to the toilers—then you will realize that it is of the highest importance; that it represents honesty and fair dealing, and is the agent of love and liberty, a friend of right and a foe of wrong.

Let not your unionism only hold sway in the union hall, but teach its objects at home. You will thus increase the demand for the goods that bear the label.

What Are You Doing With Your Union Wages?

If you belong to the Union and are buying SCAB hats, shoes, shirts, collars, suspenders, clothes, etc., you are supporting SCABS with the union wages you went on strike to maintain. The

UNION GOODS DIRECTORY

tells you WHERE you may purchase union-made goods of the best quality for the same prices that you are now paying for scab products. Do you want to know just WHERE you can buy union-made goods? Fill in the subscription blank below and mail with $1.00 to-day.

HARPER'S MAGAZINE

Mrs. Humphry Ward's

NEW NOVEL

The Testing of Diana Mallory

WILL BEGIN IN THE NOVEMBER NUMBER OF

Harper's Magazine

In this remarkable new novel the author of "Lady Rose's Daughter" and "The Marriage of William Ashe" has reached the highest point in the development of her genius. Her new story is a story of to-day, a love-story with a young heroine of fascinating charm, about whom there hangs a mystery, which is revealed as the story progresses. Mrs. Ward's story will be illustrated by the famous English artist William Hatherell, R.I.

O'Sullivan Rubber Heels

¶ These Heels of New Rubber are a positive relief to all who walk or stand. Nurses are obliged to wear them in the sick-room. If it is a fact that they make you step lighter and more buoyant and feel happier in mind and body, adopt them for your own benefit, but be sure and get O'Sullivan's. They are the only heels that are made of new rubber. If your dealer cannot supply you, send 35 cents and diagram of your heel to the manufacturers,

Washington, D. C., January 10, 1907.

Dear Sir and Brother:

At the Minneapolis Convention of the American Federation of Labor, a delegate from the Central Labor Council of Jamestown, N. Y., introduced a resolution, No. 142, which was favorably considered and approved by the convention. It is as follows:

"WHEREAS, The two millions and a half of trade unionists in America, representing millions of consumers, whose aggregate purchasing power will reach $2,000,000,000 annually; and

"WHEREAS, It is recognized that the union label—the emblem of honest toil—is indeed a powerful but peaceful and humane weapon in the hands of trade unionists, and that a consistent demand for union labeled products does not only prevent strikes, but will also abolish sweat-shops, convict and child labor, and thus prevent industrial panics from time to time; and

"WHEREAS, To greatly increase the sale of union labeled products, and to enable the trade unionists to learn where they can purchase same; therefore be it

"RESOLVED, That the American Federation of Labor, in the twenty-sixth annual convention assembled, instruct its officials to suggest to all Central Bodies to obtain a list of all union labeled articles handled by merchants in their respective localities, and that said bodies to have same published from time to time in a (pocket size) union label bulletin, giving the list of union labeled articles, and names of each merchant handling same, for distribution among members and friends of organized labor in their respective localities for information, and that the expense for such bulletins be met by organizations publishing same."

SAM'L GOMPERS,
President, American Federation of Labor.

As long as workingmen continue to buy non-union-made goods, just so long will respect for them be less and merchants continue to handle that class of goods whose existence proclaims labor's servility. It signifies that human life is becoming more highly prized in the production of human commodities than mere profit; it warns you that by patronizing a firm who does not uphold it, you assist in building up the business of a tyrant who extracts a fortune from the drudgery and degradation of his fellow-men. Therefore, create the demand. Ask for a union label wherever you go, whatever you purchase. Even though you are aware that a label is not on the market, nevertheless demand it. Demand governs supply.
